GRANDIOSE GREENERY

A handsome gentleman's retreat, the conservatory is enveloped in warmth and light. Taking a cue from the estate's lush landscape, Charles Pavarini III of Manhattan-based Charles Pavarini III Design Associates selected a soft palette of whites and greens to blend the indoors with the out.

- Lavish window treatments crafted of Stroheim & Romann fabric frame the French doors.
- The ceiling's custom latticework adds a new spin to a traditional conservatory element.
- A layered effect is achieved by placing antique rugs over an original tile floor and blending European and vintage furnishings.
